May 7, 2020

Good evening Parents/Guardians,

Our Governor Murphy has officially closed schools for the remainder of this academic year. We have prepared for the next round of packets and remote instruction to take us through the remainder of the academic period and these packets will be available beginning Monday, May 11. Packets can be picked up from 8:30am to 11:30am the 11th of May through the 13th of May. During this pick-up period you may also bring the completed packets for the prior periods to be reviewed. If you are behind on the work, please reach out to your child’s teacher and also come in to get the packets as this work is essential to the performance of your child. Please bring at least what has been completed thus far with regard to the work.

As we continue with this remote learning, I cannot thank each and every one of you enough for your patience, understanding, and cooperation in making the best of these circumstances. These have been difficult times, especially for many of you essential employees in healthcare, municipalities, police, fire, EMT, gas, electric, service industries and other areas that have been keeping everyone safe, secure and able to meet our needs daily.

Please continue to work with your child(ren) as this work is vital to their continued success. In addition, as stated earlier, it important to reach out to teachers via email, remind or DoJo if you have any questions. I also encourage you to check our website and your emails not only for updates, but for specially designated days of activities, and links for additional information for instructional assistance and precautions with regard to COVID 19.

We are continuing to provide meals at Seabrook School and delivery. Meals are available from 8:30am to 10:30am at the Seabrook Gym entrance. Limited availability due to the CDC and State Guidelines with closures limits the time to be open. Seabrook School will remain the central location on Monday, Tuesday and Wednesday for the month of May from 8am to 12pm. As always, there will be more updates to come with regard to many items that need to be addressed, but as of now this is where everything stands. Stay tuned for more information and remember, the most important thing right now is to follow established guidelines and be safe. Finally, Happy Mother’s Day to all our Mother’s this Sunday.

Thank you,

Peter L. Koza, Ed.D.
Dr. Peter L. Koza, Superintendent
